

EQUIPMENTS SON/HID 1000

Power (W)	voltage (V)	Frequency (Hz)	Current at 230 V (A)	Weight (kg)	Dimensions (mm)		
					I	L	H
IOD 1000	220-240	50/60	9,5	10	300	200	140
SHP 1000	220-240	50/60	10,3	13,5	300	200	140

Technical characteristics:

- ❖ Equipment composed by a Bakelite support, a ferromagnetic ballast HPS/IOD1000 W, an ignitor KZ1000M or KZ1000ML and a capacitor 90 μ F (250 V) or 2 capacitors 45 μ F (250 V)
- ❖ Thermal wires: 2,5 mm²
- ❖ Easy connexion
- ❖ Screw terminals: 4-10 mm²
- ❖ Safety Standards: EN-61347-1, EN-61347-2-9 and EN- 60923

NB: On request, possibility to provide the ballast with double polyester varnish immersion used in wet or high salinity environments
