

MERCURY EQUIPMENTS

Voltage (V)	Frequency (Hz)	Dimensions (mm)		
		L	I	H
220-240	50/60	230	95	100

Technical characteristics:

- ❖ Equipment composed by a ferromagnetic ballast HPL (80-400W) and a capacitor
- ❖ polyamide filled by 30% fiberglass support
- ❖ Thermal wire connexion
- ❖ Screw terminals: 1-2,5 mm²
- ❖ Safety Standards: EN-61347-1, EN-61347-2-9, EN- 60923 and EN- 60927

NB: On request, possibility to provide the ballast with double polyester varnish immersion used at wet or high salinity environments
