

TRANSFORMERS ON RAILS

Reference	Dimensions (mm)					
	A	B	H	E	F	S
100	90	106	106	68,5	90	4,5
160	126	136	117	96	121	5,5
200	126	136	117	96	121	5,5
250	126	136	117	96	121	5,5

Technical Characteristics:

- ❖ Electrical transformer on rail (called also EURCLASS) with aeration window
- ❖ Protection Class II
- ❖ Protection degree: IP21
- ❖ PA 6,6 self-extinguishing housing
- ❖ Winding group H (200°C)
- ❖ Dielectric rigidity : 3 kV
- ❖ Maximal ambient temperature : 45°C
- ❖ Galvanized tropicalized steel brocket
- ❖ Varnish immersion group F and oven drying
- ❖ Active parts are not accessible
- ❖ Installation possibility on RAIL DIN or with holes
- ❖ Safety Standards : NF-EN 61558-1 et NF-EN 61558-2-1
