

EQUIPMENT : HID 2000

Power (W)	Voltage (V)	Frequency (Hz)	Current at 230 V (A)	Weight (kg)	Dimensions (mm)		
					I	L	H
2000	220-240	50/60	16,5	14	300	200	140
2000	380-400	50/60	8,8	15	300	200	140

Technical Characteristics:

- ❖ Equipment composed by a ferromagnetic ballast IOD 2000 W, an ignitor KZ 2000ML (220V), a capacitor 60 μ F (450 V) and a Bakelite support
- ❖ Ballast with double polyester varnish immersion
- ❖ Used in wet or high salinity environments
- ❖ Thermal wire connexion
- ❖ Screw terminals: 4-10 mm²
- ❖ Possibility to connect the equipment on 380 V using an ignitor KZ 2000ML (380 V)
- ❖ Safety Standards : EN-61347-1, EN-61347-2-9 and EN- 60923
